research (Psi as it is used here can be defined as, "A means by which information can be gained from a distance without the use of the ordinary senses.") Entangled Minds: Extrasensory Experiences in a Quantum ... Radin refers to minds as "entangled" because of his own suspicion that psi results from what is called "quantum entanglement", where two particles become associated with one another so that even if separated in space, the activity of one directly affects the activity of another.
