very tiny quantity of NaOH at first, just a few drops (put one drop, shake it lightly, then put another and so on), and a small white ppt will form floating on the surface of the solution, which would dissolve very quickly if a very small amount of NaOH is added. The identification of the other cations and anions is easy. AS Level Chemistry Practical Paper 3 | GCE Guide Steadily drop acid from a burette into the flask till the solution becomes neutral (will be shown by the indicator) and note the volume of acid used. Repeat with other acid using same volume of base. Compare results, which one uses less acid is stronger acid. 1 CIE IGCSE Chemistry Alternative to Practical - The Student ... practical on their own, and Guide to Chemistry Practicals -

TETEA Chemistry is a science, but it is also used in human communication and interaction, cooking, medicine, engineering, and a host of other disciplines. Although people use chemistry every day with no apparent problem, if the time comes to take a course in chemistry in high school or college, many students are filled with dread.
