The rise of the militarists The notion that expansion through military conquest would solve Japan's economic problems gained currency during the Great Depression of the 1930s. It was argued that the rapid growth of Japan's population—which stood at close to 65 million in 1930—necessitated large food imports. Japan - The rise of the militarists | Britannica With World War II came a

massive shift in the way that the American government armed the military. With the onset of World War II President Franklin D. Roosevelt established the War Production Board to coordinate civilian industries and shift them into wartime production. Military-industrial complex - Wikipedia Though the American experiment of an all-volunteer military force is largely considered to be a success, maintaining long-term awareness of challenges facing recruitment and retention will prove instrumental to sustaining the force for years to come. One such element is the “warrior caste” – the propensity of youth from military families to serve in the armed forces – a concept gaining renewed attention as the wars of the past 15 years wind down and the composition and readiness of ...
